

# Opportunities With Experience O-W-E.C.I.C

The Revamp and Recycle with Paint course is run over 3 or 5 days. You can bring in an item from home if you have one, and sample Annie Sloan Chalk paints and waxes. This is an ideal introductory workshop suitable for beginners and those who have a little experience.

The 5-day course includes a Continuing Professional Development (CPD) Diploma in Interior Design.

Take a look at previous participants work.
